

SPECIALIST TRAINING AND CONSULTANCY SERVICES

For organisations looking to increase
awareness of diversity and inclusion

Training and Consultancy Services

We have over 30 years of experience delivering training to our own care teams to ensure they are specially equipped with the skills and knowledge to meet the needs of the diverse individuals we support.

We are now offering our experience to external organisations and companies who are seeking to upskill their organisations and teams to better meet the needs of neurodiverse individuals.

"Brilliant, such an inspirational trainer."

We have trained over 1,000 employees in businesses across the UK to increase awareness of neurodiversity.

"I've never gained so much knowledge from one course."

Whether you are looking for a basic understanding for one or two staff, or you are looking for a more detailed package of training for your wider organisation we have a range of services to suit your needs.

Training for Organisations

Our training for organisations has been specially built with Inclusion and Diversity in mind, helping organisations better understand the needs of individuals with autism. This training is a half day programme that has been specially designed to give an insight into the challenges faced by individuals with autism and how you as professionals can make a difference by changing your approach or sharing your knowledge across your organisation or team.

Our half day programmes start from £550 + VAT (depending on location)

Enhanced Training

Our enhanced package can be bolted onto the half day programme to tailor the training to suit individual needs. This is delivered as a full day programme, with the Introduction programme in the morning and the afternoon specifically designed to meet your needs, whether this be as an employer, provider, service or voluntary organisation.

Our full day enhanced programme starts from £800 + VAT (depending on content and location)

All of our packages can be delivered face to face at your chosen location or via video call (typically zoom or MS teams). If your teams are split across several areas, zoom is the perfect solution to bring them all together in one remote tutor led session.

Contact us today to discuss your individual needs.

Workplace Assessments

Workplace Assessments are perfect for employers and employees who need specific guidance in a shorter period of time.

Our Workplace Assessments assess and identify needs, adjustments and support.

You will receive guidance on the how to effectively support your employee in the workplace. This could be linked to specific issues and queries, or a useful tool for a new employee where you want to ensure you have provided all the support possible to ensure they are able to settle into the workplace effectively.

Prices start at £950 + VAT

If you need ongoing support for your employee then please also refer to our workplace support guide.

Consultancy Services

We offer privately funded consultancy support to organisations across the UK. From conducting research and leading events to better understand the local needs of adults with autism, through to individual workplace assessments. We are experienced in offering a range of support and guidance at all levels. Contact us to discuss your individual needs.
